FITTING & DRESS DETAILS

The most important decision for any Bride when planning her wedding is made when choosing her dress. Like every Bride you will want to wear the most beautiful dress you have ever seen. It is best to go shopping with someone whose opinion you value, but don't let them push you into a decision you may regret later. Our advice is that you should fall in love with your dress and not

only look wonderful, but more importantly feel comfortable wearing it. Our trained staff are experienced in helping you choose your special gown.

DRESS CARE

Before the wedding

Once you have collected your dress, place it in a room where light cannot get to it. Ideally, remove your dress from any protective plastic to avoid condensation gathering in the dress and making it damp and hang it from a high rail so it will not crease. Covering the whole dress with a duvet cover will also protect it from any dust.

After the wedding

To ensure your wedding dress is kept safe, it is essential that you have the gown dry cleaned and heirloomed in a special box to preserve the delicate fabric, laces and beading. And who knows... in the future it could be used to make the christening gowns for your children!

One fine Day CAKES
